VALUE EMAIL SWIPE

THEME: Power of Green Juice

SUBJECT OPTION 1: The Magic of Green Juice

SUBJECT OPTION 2: Unveiling the Secrets of Green Juice 🍃🍊

Hey {{First_name}},

It's so easy to be confused... **or even intimidated** ... when you start your wellness journey.

Isn't it?

So many fad diets. So many so-called "miracle cures".

Even *juicing can seem like a mountain to tackle*. And it's hard to know where to start the climb.

Some "influencers" tell you to juice fast for like 30-90 days.

Others warn to stay away from fruit.

And still others say stick to just one thing, like celery juice.

The juicing world is vast. That's true.

And, **as a Certified Juice Therapist [If you are one]**, I have a lot of guidance to share with you. On all of these topics. (So, stay tuned...)

But today, I want to help you to get started. Quickly. And easily.

And if there's one standout to start with. That pretty much everyone can agree on.

It's the green juice.

Leafy greens are bursting with nutrients and enzymes.

And green juices, when consumed regularly... can transform your life. And heal your body.

VALUE EMAIL SWIPE CONTINUATION

You might wonder what makes green juices so magical. Here's just a few of the ways:

1. **Rich in Chlorophyll:** Green juice acts as a natural detoxifier.
2. **Low in Sugar:** A green juice is generally less fruit, more greens - making it perfect for balanced energy.
3. **High in Nutrients:** Green juice is the superior way to meet your daily vitamin and mineral needs.
4. **Super Healing Properties:** Some leafy greens, like kale, can actually help prevent certain cancers. Others, like spinach (and kale), can help heal your heart. And on. And on.

And the best secret of all? Green juice doesn't have to taste like "earth" or "grass."

A green juice can be naturally salty, if you add celery and lemon. Or spicy, if you add a jalapeno pepper. Or sweet, if you add a few apples or a handful of strawberries.

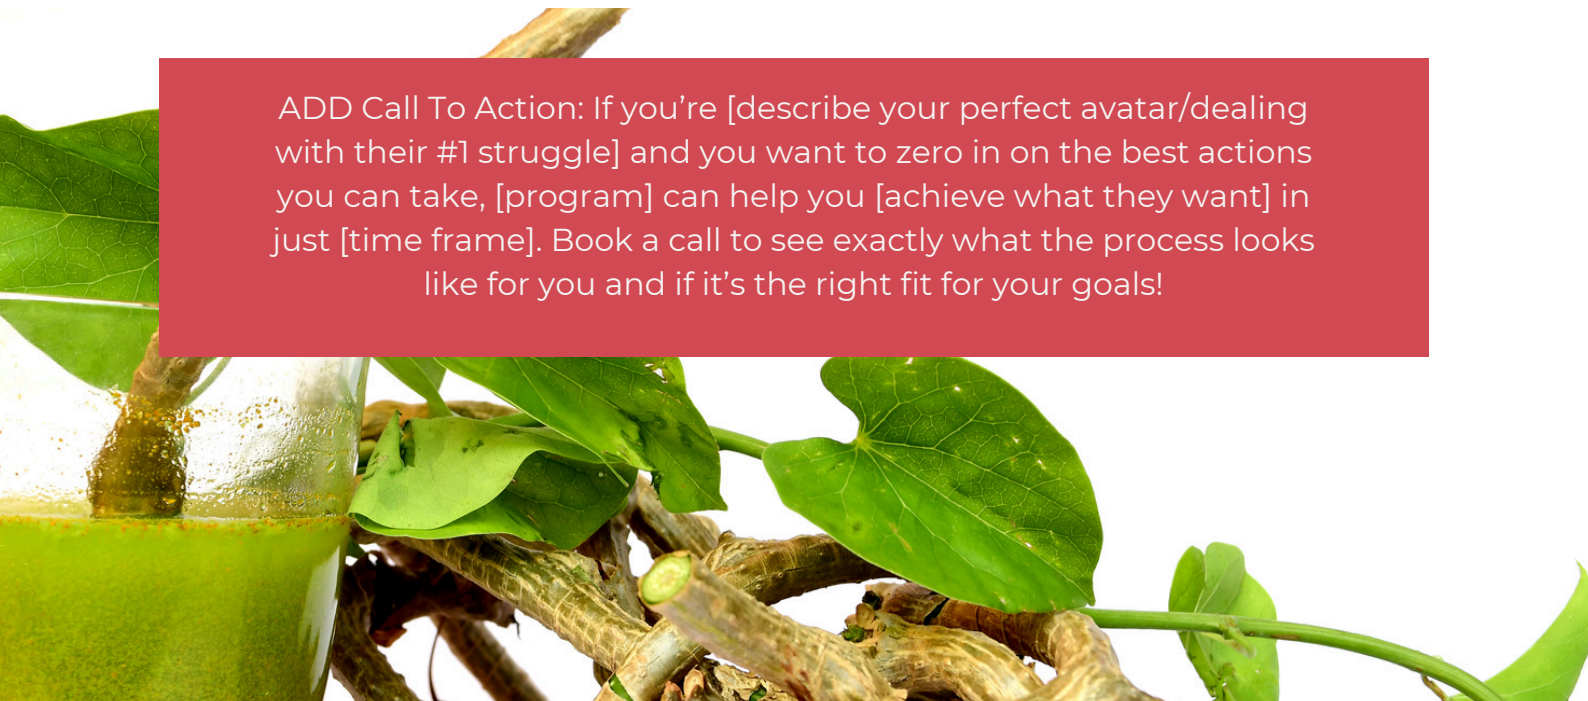

If you're curious to give it a try, I'll be sharing my favorite green recipe with you in my next email (in just a few days)!

Stay vibrant,
